ABOUT ME:

I am a junior full stack developer on a journey to build a career in the web world. I am passionate about applying my web development skills to real projects and contributing with my project management experience from my role as an evaluator. I consider myself proactive and a quick learner, able to adapt to new technologies. Possessing strong organisational and time management skills, I'm used to prioritising tasks to meet tight project deadlines without sacrificing attention to detail. I enjoy teamwork, but am also fully capable of working independently.

PROJECTS:

CRISTINA SILES'S WEB:

Technologies: Vue.js, HTML, CSS, Javascript, Vite, Docker, Pinia, GitHub Actions, Firebase, Tailwind, Node.js.

October 2023 - Present
